## **HB 139 Eliminate public records exemption if record 75 years old**

**Sponsors:** Rep. Perales (R), Rep. Keller (R)

**Purpose:** Historical Records provide valuable insight into our collective history as a state, as a society, and as families. Research of these records is requested by historians and genealogists, both professionals and family history practitioners, for a variety of reasons.

The National Genealogical Society recently initiated a Declaration of Rights advocating for access to federal, state, and local government records, indicating that thousands of professional genealogists do research every day on behalf of clients, government agencies, and attorneys.

In 2015 the Ohio General Assembly passed legislation opening confidential records of the Department of Mental Health and Addiction Services fifty years after the patient's death.
