Birth Mother Support Group (Virtual) Wednesday, August 7, 7:00-9:00 PM ET

Our Birth Mother Support Group provides a safe and supportive environment to help with the complexities that are often part of the adoption experience. This month, the group offers a special topic discussion with everyone welcome. Typically, the meetings are open to only birth mothers connected by the lifelong journey of adoption and are an opportunity for birth mothers to encourage one another in their healing process through discussion and interaction. Birth mothers who have experienced closed adoptions or adoptions with varying degrees of openness attend this meeting. We invite you to join this group of women, who are at different places on the same journey, to give and receive understanding and support. Register at <http://bit.ly/CalendarANC>.

DNA Discovery Support Group (Virtual) Tuesday, August 6, 8:00-10:00 PM ET

If you have either found family using commercial DNA testing or been found by family who used commercial DNA testing (examples of commercial DNA testing are Ancestry.com, Family Tree DNA, 23&Me, My Heritage, etc.) then this is the group for you. You do not need to have a formal adoption connection to be in this group, but you do need to have a DNA discovery for this group to be relevant to you. Finding family, or being found - whether you are looking or not - is a major life event. It can upend long-held beliefs about ourselves and challenge the very things that make us feel like, well..., ourselves.

This group will focus on supporting each other during and after such DNA discoveries. These are not one time events; they are lifelong journeys. This peer support group is not meant to delve into the technical aspects of understanding your DNA results, but rather serve as additional support on your personal journey to integrate your DNA findings into your life. The focus of this group is on the emotional journey, and not the technical aspects of DNA results or the interpretation of results.
