

Programs for Prospective Parents

Building a Family

Adoption Network Cleveland has multiple ways to help parents seeking to adopt or provide a permanent home to a child in need. As a nonprofit organization, we provide unbiased support and education.

Three services meet these needs:

1. **Helpline** - Individualized one-on-one answers for parents adopting from foster care, providing kinship care, or seeking guardianship.
2. **Adoption 101: Where Do I Begin?** (Virtual Workshop)
3. **Adoption 201: Adopting Infants Domestically** (Virtual Workshop)

Helpline

Our Helpline provides prospective parents with answers to questions concerning adoption, kinship and foster care; how to achieve permanency for children and guide families to successfully navigate the complexities involved in adopting from the public child welfare system.

Call our Helpline, 9 am–4:30 pm Monday through Friday, or email Julius Jackson anytime.

Adoption 101: Where Do I Begin?

For those beginning to think about becoming adoptive parents, this workshop provides a range of information on options including public, private and international adoptions.
